## SYMBOLS

Over 150 exciting new products have been added to our line in 2017. Look for this symbol!

This icon identifies products that are among our top sellers.

The RP symbol indicates all products that are available in attractive retail packaging. For details, see pages 312-315.

This icon helpfully indicates products that should be hand-washed only.

Items that are shipped knocked down are easily identified by this symbol.

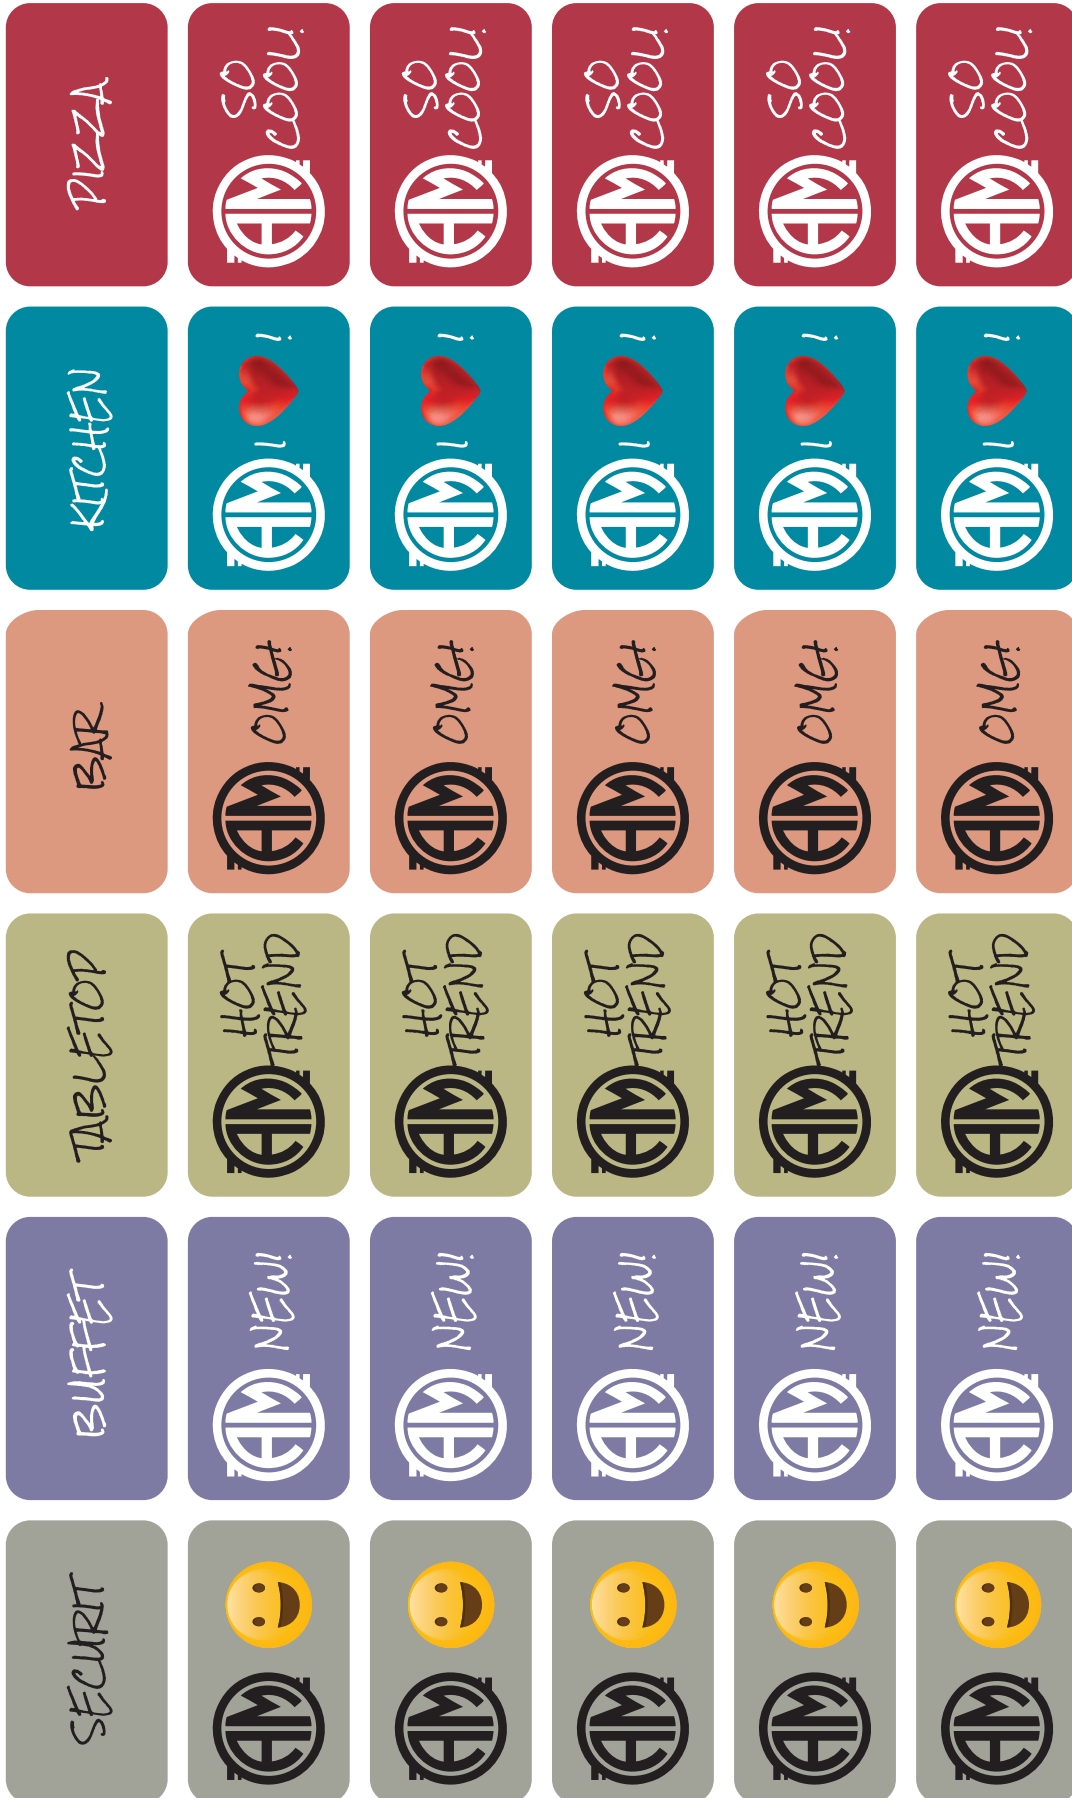

This logo is placed next to all products manufactured in the United States of America.

This logo indicates a product made in a North American Free Trade Association member country.

READY - SET - STICK! HERE'S THE DEAL - JUST PEEL!  
 NOW YOU CAN USE THESE HANDY CRACK 'N' PEEL STICKERS TO MARK EACH CATEGORY  
 SECTION FOR QUICK REFERENCE. YOU CAN ALSO MARK THE ITEMS THAT YOU REALLY LIKE.  
 JUST TAG IT TO FLAG IT!

# Securit<sup>®</sup> CHALKMARKER ORIGINAL

## A) Original Chalk Markers

The secret to great signs is not so much the artist's talent but the tools employed. These original chalk markers (when dry) are resistant to smudging, fading and light rain. Use on all non-porous surfaces. They clean with our chalkboard sponge.

## Securit® *waterproof* GLASS+ CHALKBOARD+

### A) Waterproof Chalk Markers

Protect your artistic chalk creations by using this fantastic assortment of markers. In six colors, waterproof chalk markers (when dry) are waterproof, smudge-proof and fade-proof on all non-porous surfaces. Use them on glass, mirrors, plastics, metal and of course, our chalkboards. The ink will not come off until you want it to come off!

# BUFFET & DISPLAY

**VIDACASA®**  
by American METALCRAFT

## VIDACASA® BY AMERICAN METALCRAFT

Vidacasa by American Metalcraft is the first temperature-controlled buffetware that works independently of electricity, cords, gels, fire or ice. It was developed for chefs and caterers who need modern, safe and efficient ways to keep food hot or cold, indoors or outside. Designed for buffet presentations, Vidacasa features a variety of modular bases, plates and accessories. Each piece in the line can accept both iThermo Hot and Cold Cells for consistent food temperatures.

## THE COMBINATIONS ARE ENDLESS...

Completely modular, Vidacasa includes components that can mix and match with one another quickly to change up buffets. You can easily change from cold appetizers to hot entrees to cold desserts. With different iThermo cells, you can serve hot and cold food in the same buffet line. Mix in other American Metalcraft platters, bowls and casseroles and you can update buffet lines in minutes!

# COLD TECHNOLOGY

Keep food colder longer with Vidacasa Cold Cells! Developed for NASA to help keep astronauts at a constant temperature during space walks, the cooling technology is conducted through the flat surfaces of the Cold Cells, efficiently chilling food.

Vidacasa Cold Cells far outperform wet ice, blue gel and ice packs. They are ideal for presenting chilled food ranging from salads and cold appetizers to cool desserts. Cold Cell contents are non-toxic, food-safe and comply with USA, BS EN and FDA standard tests.

### Recharge Cold Cells:

- Recharge in 0° F (-18° C) freezer
- Recharge time: 24 hours
- Each cell can be recharged up to 1,200 times

## A) Vidacasa iThermo® Cold Cells

- Cold Cells deliver a constant temperature of 14° F (-10° C)
- Cells maintain temperature for up to 8 hours
- Recharge cells for 24 hours in a 0° F (-18° C) freezer
- Cold Cells can be used inside Vidacasa bases, in party tubs and pails to keep food and beverages cold

Deliver constant temperature

Item No.	Description	Pack	Cu. Ft.	Wt.	List Price
<b>F10800</b>	Cold Cell 7" L x 8" W x 1" H (17.8 x 20.3 x 2.5 cm)	6	0.42	15	<b>32.00</b> Ea
<b>C1</b>	Ultra-Powered Aluminum Cold Cell 8" Sq. x 2" H (20.3 x 5.1 cm)	6	0.50	20	<b>87.00</b> Ea

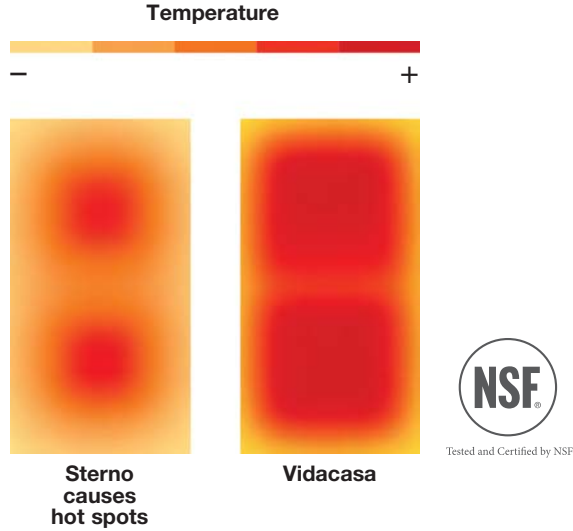

NOTE: The performance of the VIDACASA Cold Cell will not directly correlate to the temperatures of food on the plate surface, due to the density of food types, indoor / outdoor elements and other external variables. On average, while using wet ice, food will only stay at a constant temperature of 41°F (5°C) or below for 8 minutes. With the VIDACASA F10800, food will stay at a constant temperature of 41°F (5°C) or below for 49 minutes and with the VIDACASA C1, food will stay at a constant temp of 41°F (5°C) or below for 132 minutes. Full test results are available upon request.

Traditional Solutions	Vidacasa Solution
Wet ice / dry ice / blue gel with normal plate	Vidacasa Cold Cell Buffetware
Unsophisticated presentation	Elegant presentation
Poor performance	Outstanding cooling performance
Not reusable	Reusable, eco-friendly
Dry ice is dangerous and toxic	Food-safe and non-toxic

# HOT TECHNOLOGY

Eliminate open flames and diminish the risk of fire with Vidacasa! Unlike induction heat, Vidacasa Pro Hot Cells are cordless and portable, making buffet presentations extremely flexible. The design is perfect for serving a variety of dishes, large or small, to any sized event.

Unique thermal engines are at the heart of the Vidacasa system, providing maximum transformation of electricity to heat. The heat energy is conducted through the flat surface of Hot Cells, ensuring food stays warm efficiently and evenly.

*KEEPS FOOD AT OPTIMAL HEAT FOR UP TO 3 HOURS!*

## Recharge Hot Cells:

Direct Wall Mount Charging

**6 Hours**

- Recharge time: 6 hours
- Each cell can be recharged up to 500 times

### Vidacasa Solution

Vidacasa Hot Cell Buffetware
Placed inside the base tray, elegant presentation
Flexible and safe to use
Excellent warming performance up to 3 hours*
Portable, reusable, safe and eco-friendly

## A) Vidacasa iThermo® Pro Hot Cell

- Depending on the setting, the Hot Cell will deliver constant temperatures of 176° F (80° C) or 230° F (110° C)
- Cordless performance of up to 3 hours. Cell can be used with charger for continuous heat
- Recharge cell by connecting directly to a wall outlet (charger included)
- Hot Cells can be used inside Vidacasa bases, with chafers and griddles to keep food at optimal temperatures

Item No.	Description	Pack	Cu. Ft.	Wt.	List Price
<b>H1</b>	Pro Hot Cell 8" Sq. x 2" H (20.3 x 5.1 cm)	6	2.24	31	<b>920.00</b> Ea

\*Cordless performance of up to 3 hours. Cell can be used with charger for continuous heat.

## CONVENIENT STORAGE AND EASY TRANSPORT!

Save time and energy with Vidacasa Charging Stations by American Metalcraft! Cut down on the amount of time spent charging multiple units and energy consumed with multiple outlets. Available in two sizes, these charging stations are equipped to recharge multiple Hot Cells at a time. Each station is designed with standard 15 Amp electrical circuits that help the system evaluate the amount of electrical currents that can be drawn.

Off-premise operations also get a little easier with our insulated bag for Hot and Cold Cells. This lightweight, insulated bag features a convenient carrying strap. Load up six Hot Cells or six Cold Cells in each bag and hit the road!

### B) Wall-Mounted Charging Station

- Power strip mounted in upper compartment provides power for up to 8 Hot Cells
- Retractable door moves completely out of the way, providing easy access to cells
- Torque-resistant lock acts as a handle when supplied combination padlock is removed
- Mounting bracket and through holes provide the ability to secure station to either a wall or surface
- Ships fully assembled and ready to use
- Warranty: Body - 12 year, Electrical - 1 year

Item No.	Description	Pack	Cu. Ft.	Wt.	List Price
<b>CAB8</b>	(8) Cell Charging Station 28¾" L x 15" W x 14¼" H (73 x 38.1 x 37.5 cm)	1	6.11	80	<b>2,140.00 Ea</b>

### C) Charging Station

- Provides power for up to 20 Hot Cells with laser printed numbers on every slot for identification
- Includes a sophisticated power manager that continuously analyzes power equipment to prevent circuit tripping
- Side panel includes a cord winder to keep the power cord neat and out of the way when not in use, as well as additional accessory hooks
- Full-access doors in the front with removable panel in the back of cart for access to power
- Power manager features temperature sensors that control two cooling fans, keeping Hot Cells at a safe operation condition
- Dual-handle design for safe and easy mobility
- Ships fully assembled and ready to use
- Warranty: Body - 12 year, Electrical - 1 year

## THE MELAMINE NATURALS™ COLLECTION

At first glance, all of these boards and peels look like beautiful wood serving pieces. But upon closer examination, these are not wood but durable, washable melamine!

**Pizza Peel**

**Wood Oil**

Wood pizza peels should never be used under heat lamps or soaked in water. If necessary they can be seasoned or sealed with oil. To seal, wipe any food-safe oil (like mineral oil) on the surface of the peel. Some oils will eventually go rancid; these oils should be avoided. If sealed, the peel is less likely to pick up unwanted odors, food particles and moisture. This will not increase the life span of the peel. Peels eventually wear out. If peel warps, leave overnight with the warp facing up and it should flatten out. Avoid leaving on hot surfaces, which could increase chance of warping. Pizza peels are not dishwasher-safe.

# It's EASY TO MAKE CREATIVE DISPLAYS!

Throughout the catalog, we highlight the versatility of many products that can double as risers to provide unique looks for buffets and displays. As examples, see p. 81 where bamboo butcher block boards are used in a layered presentation. A little tapered birch bread basket, when inverted, is the perfect size to act as a riser for a stainless steel pail on p. 109. When turned sideways, vintage wood crates (featured on p. 117), offer a beautiful two-tiered display.

It's so easy to get creative with American Metalcraft products! Here are some more ideas...

PWB10 shown with FSLT14 faux slate melamine platter and PWB64 poplar box

THINK OUTSIDE THE BOX!

The poplar wood box that is! Here is a PWB10 round poplar box acting as a riser with an SSLT14 faux slate melamine platter and a PWB64 smaller round poplar box. For product details, see p. 146.

FR8 and FR12 shown with CER5 and CER7 ceramic bowls

You'll Flip Over These BASKETS!

Literally. Flip them over and they become some really creative risers that fit bowls and platters. See p. 171 and p. 175 for product details.

(2) BNRB68C inverted baskets shown with BG189 platter and MELSC20 sauce cups

WCBL shown with MELSL52 bowls

THIS IS A CRATE IDEA!

Turn a Vidacasa wood crate upside down for a little double duty. Place (4) MELSL52 angled round melamine bowls (or any other bowls, plates or platter) on top for an elevated effect. See product details on p. 33.

## WOOD CRATES

In six different sizes and four attractive finishes, these wood crates are as versatile as it gets. As their name implies, use them for holding and storage. The two smaller crates are the perfect size for holding one or two Vidacasa Hot Cells. Flip any crate over and use it as a beautiful riser. They adapt to any setting! Three of the larger crates are sized to fit with polycarbonate and insulated inserts, too.

## PLATE COVERS

Before a plate leaves the kitchen, be sure it's topped with a plate cover from American Metalcraft. Since 1970, American Metalcraft has specialized in offering round and oval covers in custom sizes to fit plates.

\*Some plates with wide bases may not fit into the category their outside diameter indicates. In these cases covers in a larger category may be required to insure stacking.

\*\* A finger hole is not available for plates between 4½" and 5".

- Sample plates required with all new orders for custom fitting
- If we have your customer's plate to measure, in most cases we guarantee our covers will stack with your customer's china
- **Minimum order 24 pieces**

## CUSTOM PLATE COVERS

### The Perfect Fit, Time After Time

To achieve the perfect fit, a sample plate is required. Plate covers are then custom-fitted over the rim of the plate.

Manufactured from durable stainless steel, American Metalcraft plate covers are heat-retaining, odor-resistant and they won't chip, crack, flake, burn or melt. Most styles have a finger hole. The standard finish is polished on the sides and satin on the top. All satin or all mirror finishes are also available.

1. Plate covers are custom-fitted over the rim of the plate with allowance for some normal size variation in commercial china. Covers are approximately 2" (5.1 cm) high over the rim of the plate. Extra high and lower height covers are also available (see p. 132).
2. Sample plates are required with all new orders for custom fitting. In most cases we guarantee our covers will stack with your customer's china.
3. To ensure secure stacking, a "crown" is formed in the top of the cover that matches the foot of the plate. This stacking feature offers safe multiple meal carrying and cuts down on serving time.

### Washing Instructions

Covers are manufactured using food-safe compounds and will require initial hand washing with a degreasing detergent. Always thoroughly dry plate covers after washing. Never store them damp.

### Ordering Tips

1. Since commercial china will vary in size, it is best to have the china company provide a sample for plate cover sizing. This assures us of furnishing a cover that fits over the rim of the plate properly and also enables us to custom design a "crown" on the top of the cover for solid stacking.
  2. Send the sample plate(s) to American Metalcraft with your purchase order for pricing confirmation. Only prices quoted after receipt of sample plate(s) are guaranteed.
  3. Some plates and oval platters with wide bases and oblong platters may not fall into the category indicated by their top outside dimensions.
  4. Custom-fitted covers are manufactured approximately ¼" larger than the sample plate provided. This will allow for some normal variation in the size of the china.
  5. Most plate cover reorders should reference a previous order or an American Metalcraft invoice number.
  6. Custom-fitted covers are non-returnable.
- Note: If you have china from more than one manufacturer, or from different lots, make sure you measure five from each and submit the largest and smallest of each.

A

**Extra High**

B

**Lower Height**

**A ) Extra High Round Banquet Covers**

Approximately 3" (7.62 cm) high over rim of plate. Stainless Steel. Available for plates 10" or larger. Can be custom-fitted for solid stacking. **Special order only. Sample plate required. Minimum order 24 pieces.**

Description	List Price
3" H for Plates over 10" Dia. (Shipping Weight approximately 20% more than CVR covers.)	Add <b>9.00</b> to CVR List

1½" (3.81 cm) high over rim of plate. Stainless Steel. Can be custom-fitted for solid stacking. Lower Height Covers available for most sizes over 9" (22.8 cm) dia. **Special order only. Sample plate required. Minimum order 24 pieces. Other heights available. Call for quotation.**

Description	List Price
Lower Height Covers (Shipping Weight Approx. 20% less than CVR covers.)	Add <b>6.00</b> to CVR List

**Old and Used Covers –  
Reworked Recrowned Covers**

If covers fit over the rim of new china, it may be possible to recrown them to stack with the new china. This is possible in most situations but not all. Please send a sample of the new china and three old covers to determine feasibility. **Quoted on a case by case basis.**

**Double Crowns –  
Stacks with Two Different Plates**

May be available at additional cost. Please call our plate cover department at 800-333-9133 to determine availability.

**Custom Double-Step Plate Covers**

The ingenious design of these Double-Step Covers offers versatility like never before. Two different rims fit two completely different plate sizes so you get double use from one cover! Call for details - 800-333-9133.

### C ) Oval Custom-Fitted Stainless Steel Plate Covers

For any size or make ceramic, plastic, metal or glass oval plate. From 9½" (24.13 cm) to 16" (40.64 cm) long. Constructed of stainless steel with beaded rim. Covers custom-fitted directly to plate for proper nesting and solid stacking; this guarantees a perfect fit.

Please contact us for a quotation on oval and oblong plate covers. The information below is a guide only.

Ceramic plates have a tendency to warp during manufacturing. We cannot guarantee our oval covers will stack solidly if this condition exists.

Item No.	Description	Wt.	List Price

### C ) Standard Insulated Thermo-Dri Hot Food Bases

Custom-fitted plate-holding bases with separate pellet for plates between 8<sup>13</sup>/<sub>16</sub>" to 12¾". These bases are made from stainless steel and double-wall to provide excellent insulation and heat retention. The separate aluminum pellet fits snugly into a specially designed well inside the base. Since only the pellet is heated, the base remains cool to the touch while the food stays hot. **Minimum order 24 pieces.**

#### Thermo-Dri Bases - Sample Plates Required

Category	Description	Wt.	List Price
TB60	For Plates 8 <sup>13</sup> / <sub>16</sub> " to 9¾" Dia. (22.4 to 24.8 cm)	17 Lb/Dz	48.00 Ea

# Pizza Pans & SUPPLIES

A

## A GUIDE TO OUR PIZZA PANS

### A ) Aluminum Pans

Aluminum pans are available in two weights. Standard-Weight pans are 18 ga., .040", 1 mm aluminum and Heavy-Weight pans are 14 ga., .064", 1.5 mm aluminum; Heavy-Weight pans are 50% heavier than Standard-Weight. Standard-Weight pans are usually designated with an "A" as either the prefix or suffix in the item number and Heavy-Weight pans are usually designated with an "HA" as either the prefix or suffix in the item number. Hand-wash is recommended as aluminum is a soft metal that is attacked by detergents with a high alkaline or acidic nature. Hand-wash with detergents made specifically for aluminum. Through repeated use aluminum will soften and if scoured, will thin.

Aluminum pan

B

### B ) Tin Plate Pans

Tin Plate should be seasoned before use and may need periodic reseasoning. Tin Plate will darken with use and will rust if refrigerated, soaked in water or left unseasoned in damp environments. Wipe dry immediately after hand washing. Tin Plate pans are designated with a "T" as either the prefix or suffix in the item number. Call for additional Tin Plate pan options.

#### To Season Tin Plate Pans

To season, wash in warm, soapy water and quickly dry. Brush oil on inside and outside surfaces of the pan and bake to a golden or dark brown. When seasoning, bake at regular times and temperatures. Some pans may need a second or third coating before being fully seasoned.

Unseasoned tin plate pan

Seasoned tin plate pan

### C ) Hard Coat Pans

Hard coat pans are made from Heavy-Weight aluminum. Perf and SuperPerf hard coat disks are made from Standard-Weight aluminum.

Hard Coat pans are usually designated with an "HC" as either the prefix or suffix in the item number. Hard Coat anodizing is a synergistic electro-chemical process that converts the surface of aluminum into aluminum oxide. The aluminum oxide is a dark color. This finish is hard and will not flake off. However, the aluminum underneath is soft and through repeated use the pan will soften. If scoured, the pan will thin. Hard Coat pans are not non-stick and must be seasoned. Hand-wash only.

#### To Season Hard Coat Pans

Wash and dry the pan thoroughly. Wipe oil on the inside and outside surfaces of the pan, and allow to soak in for 30 minutes. Then bake at regular cooking times and temperatures. Do not over bake and do not wash off excess oil. The oil residue and any additional oil added before baking allows the pan to develop non-stick properties. Remember when cleaning hard anodized aluminum, this is considered an amphoteric coating and will be attacked by solutions of a high alkaline or acidic nature. Do not expose these pans to dishwashers or caustic cleaning solutions. Hand-wash with detergents made specifically for aluminum.

#### Please note:

In our catalog are thousands of different pizza trays and tens of thousands of different combinations of styles, depths, materials and options. **These pans are made to order; they are not stocked.** It is possible that your special order pan has never been made previously or has only been made once or twice. **Consequently, special order pans, once ordered, cannot be cancelled or returned.** Please review and re-confirm the tray you are ordering. If you have any questions, please call and, if necessary, request a sample. **Orders for special order pans cannot be cancelled.**

**Special order pans are not returnable.**

C

Hard coat pan

### D ) Nibs

Any round or square pizza tray or pan we manufacture, 2" (5.1 cm) deep or less, from 8" (20.3 cm) up to 20" (50.8 cm), can be furnished with Nibs. To order, use the regular item number and add the prefix "N." Also note in the body of the order that the pans should be made with Nibs. The Nibs are approximately 5/8" (15.9 mm) diameter and raise the pizza about 1/8" (3.2 mm) above the surface of the pan. Raising the pizza off the surface allows moisture to escape and a fresher, crispier pizza may result. Pans with Nibs cannot be Perf or SuperPerf. Refer to the tray or pan style for more information and for pricing information.

Nibs

### E ) Perf

Any round or square pizza tray or pan less than 21" (53.3 cm) in diameter can be Perforated. To order, use the regular item number and add the suffix or prefix "P." Also note in the body of the order that the pans should be Perforated. These pans cannot be made with Nibs. Perf pans allow the bottom of the pizza to cook faster and can provide a crispier crust. Perf pans can also be used to keep cooked pizzas fresher by allowing moisture to escape. Refer to the tray or pan style for more information and for pricing information. All holes are 3/8" (9.5 mm) diameter.

Perf

### F ) SuperPerf

Any round pan less than 21" (53.3 cm) in diameter can be SuperPerf. To order, use the regular item number and add the suffix SP. Also note in the body of the order that the trays or pans should be SuperPerf. These pans cannot be made with Nibs. For the same diameter, SuperPerf pans have twice as many holes as Perf. SuperPerf allows the bottom of the pizza to cook faster and can provide a crispier crust. SuperPerf can be used to keep cooked pizzas fresher by allowing moisture to escape. All holes 3/8" (9.5 mm) diameter. Refer to the tray or pan style for more information and for pricing information.

SuperPerf

Perf and SuperPerf Hole Guide

MEGA SCREENS LAST FIVE TO TEN TIMES LONGER THAN SCREENS!

Mega screen

Mega hard coat anodized screen

AVAILABLE IN HARD COAT, TOO!

C

Mega hard coat anodized CAR pan

Mega CAR pan

**B) Mega Screens - Aluminum** 

The only pizza screens tough enough to exceed the high standards of NSF, Mega screens are the smart choice. Holes and open rims make cleaning a breeze and improve food safety. Available in aluminum or hard coat anodized aluminum, Mega screens can last 5 to 10 times longer than standard pizza screens. Hard coat Mega screens are the most durable, cost-effective screens for conveyor oven use. Holes are 3/32" (0.24 cm) diameter.

SP = SuperPerf Aluminum Disk

TWICE AS MANY HOLES AS PERF DISKS!

### A) Perf Disks

Manufactured from 18 ga. 1 mm aluminum, Perforated Disks can produce a more evenly baked crust by allowing for more air circulation. The edges of the disks and the edges of the holes are unfinished and may be sharp. Holes 3/8" (9.5 mm) Diameter.

### A ) TP Series Wide-Rim Pans

There's a reason why other pizza supply manufacturers imitate, but never duplicate American Metalcraft's product line. When it comes to durability and reliability in pans, American Metalcraft offers the best value. The TP Series of Pizza Pans is manufactured from heavy-duty 14 and 18 ga. aluminum. These gauges of aluminum contribute significantly to a longer life. With so many styles and sizes from which to choose, American Metalcraft has built a solid reputation as a quality manufacturer for the pizza industry since 1947.

### D) 7000 Series

7000 Series are stacking covers for DEP, 2000 and 9000 pans, covers for the top of a stack for 5000 and 5100 pans, or as covers only for 4000 and 8000 pans. Only tapered pans can be made to stack with 7000's.

If you know the AM item number of your pan, look for it on the list. If you don't know the number, measure the top inside diameter of your pan and find the 7000 series cover with the largest smaller ID.

## Pizza Peel Wood Oil

Wood pizza peels should never be used under heat lamps or soaked in water. If necessary they can be seasoned or sealed with oil. To seal, wipe any food safe oil (like mineral oil) on the surface of the peel. Some oils will eventually go rancid; these oils should be avoided. If sealed, the peel is less likely to pick up unwanted odors, food particles and moisture. This will not increase the life span of the peel. Peels eventually wear out. If peel warps, leave overnight with the warp facing up and it should flatten out. Avoid leaving on hot surfaces, which could increase chance of warping. Pizza peels are not dishwasher-safe.

# PAIRING SUGGESTIONS FOR CREATIVE PRESENTATIONS

Throughout the catalog, we pair many items with our stands and risers. Various bowls, trays, platters and baskets in bamboo, ceramic, porcelain, melamine, glass and stainless steel fit and look wonderful in our stands and risers. Now we are adding flight boards that fit glass bottles and mugs to the mix. Please use the list below to make your own pairings for gorgeous, one-of-a-kind presentations!

# CARE AND USE

## Endurance Melamine Bowls and Platters

This nearly indestructible line of melamine is long-lasting when cared for properly. It is not recommended for microwave use and should be washed only in the top rack of the dishwasher.

Regarding serving suggestions, we do not recommend any citric, acidic or strong-colored food products that would have direct contact with melamine. These products can cause staining over time. PET liners that can protect melamine from staining are available.

## Wrought Iron Griddles

Prior to using your American Metalcraft Griddle for the first time, hand wash with a mild detergent and warm water. Then dry thoroughly with a soft cloth. Do not expose wrought iron griddles to a dishwasher,

abrasive sponges, caustic cleaners or acidic detergents.

## Wood Peels and Serving Boards

Wood pizza peels and serving boards should never be soaked in water, even for a few minutes. To clean, simply wipe down with a damp cloth and allow to air dry. They can be seasoned or sealed with oil. To seal, wipe any

food-safe oil such as mineral oil on the surface of the peel. We recommend our Wood Oil sold on p. 311. If sealed properly, the peel is less likely to pick up unwanted odors, food particles and moisture. If a peel warps, leave overnight with the warp facing up and it should flatten out. Avoid leaving peels on hot surfaces. This increases the chance of warping.

## Securit Signs

To erase Securit Original Chalk Marker messages on Table Boards, Mini Chalkboards, Wall Boards, Sandwich Boards and other Securit Signage, wipe with a soapy cloth followed by a clean cloth or use the Securit

Chalkboard Sponge as an easy cleaning alternative. Securit Waterproof Glass Chalkboard Markers can be removed with an all-purpose cleaner.

## Carbon and Black Steel Pans

Seasoning is recommended. To season, wipe interior of pan with flavorless cooking oil and heat empty pan. When surface becomes hot, remove from heat and allow pan to cool. Repeat this process twice. Color of pan will change to a darker finish. This indicates that pan has gained a natural, non-stick protection.

To clean, hand wash in hot water with mild detergent. Dry with paper towel or place in warm oven for a few minutes. Store in dry place. Do not expose to dishwasher, abrasive sponges or acidic detergents. Not suitable for microwave.

Caution: Flat iron handle is not heat-resistant

## Cast Iron

**Before first use:** Hand wash and dry immediately. Rub with a thin, light coat of vegetable oil to restore sheen. **After first use:** Wash with hot water (and mild soap if necessary.) Dry

immediately and rub with a light coat of vegetable oil. To remove excess residue, use boiling water and a plastic scrub bun or brush. Dishwashers, acidic detergents, and scouring pads/bristles are not recommended. Re-season the pan when necessary to prevent food from sticking.

**Daily Care Notes:** Never put cold water in a hot cast iron pan; this can cause the pan to crack or warp. Store in a cool and dry place. Gas flames should not extend up the sides of cast iron cookware. When deep frying, fill cast iron cookware only to 1/3 of capacity.

## Hammered Copper, Bamboo and Wrought Iron

As beautiful as these lines are, they require special attention when cleaning. Please hand wash only with a soft cloth. Do not scour with steel wool or abrasive cleaners. We recommend our Copper Polish for hammered copper sold on p. 311.

## Vidcasa by American Metalcraft Hot and Cold Cells

To clean, wipe with water and a soft cloth. Do not submerge in water or expose to dishwasher, abrasive sponges or detergents. To recharge, reference pp. 27-28.

## Lids and Insulated Polyurethane Bases

To clean, wipe with water, mild detergent and a soft cloth. Do not expose to dishwasher, abrasive sponges or acidic detergents.

## Galvanized Pails and Tubs

To clean, hand wash in warm water with mild detergent and dry quickly. Do not expose to dishwasher, abrasive sponges, bristles, caustic cleaners or acidic detergents. Do not refrigerate, soak in water or use with acidic foods.

## Pizza Pans and Trays

To ensure a longer life, always use special care with American Metalcraft Pizza Pans and Trays.

**Aluminum Pans and Trays** – Aluminum is a soft metal that is attacked by detergents with a high alkaline or acidic nature. Use detergents made specifically for aluminum. Through repeated use, aluminum will soften and, if scoured, will thin. Hand wash only.

**Tin Plate Pans** – Tin plate should be seasoned before use and may need periodic re-seasoning. Tin plate will darken with use. Tin plate will also rust if refrigerated, soaked in water or left unseasoned in damp environments. Never soak in water. Wipe dry immediately after hand washing.

**To Season Tin Plate Pans** – Wash in warm, soapy water and quickly dry. Brush oil on inside and outside surfaces of the pan and bake to a golden or dark brown. When seasoning, bake at regular times and temperatures. Some pans may need a second or third coating before being fully seasoned.

**Hard Coat Pans** – These pans are made from heavy-weight aluminum. Hard coat anodizing is a synergistic electro-chemical process that converts the surface of aluminum into aluminum oxide. The aluminum oxide is a dark color. The finish is hard and will not flake off. However, the aluminum underneath is soft and, through repeated use, the pan will soften. If scoured, the pan will thin. Hard coat pans are not non-stick and must be seasoned. Hand wash only.

**To Season Hard Coat Pans** – Wash and dry pans thoroughly. Wipe oil on the inside and outside surfaces of the pan and allow it to soak in for 30 minutes. Then bake at regular cooking times and temperatures. Do not over-bake and do not wash off excess oil. Just wipe. The oil residue and any additional oil added before baking makes the pan stick-resistant. Do not expose these pans to dishwashers or caustic cleaning solutions. Hand wash with detergents made specifically for aluminum.

## Pizza Stones

This “all-natural” stone is freezer, microwave and oven-safe. It is not dishwasher-safe and requires hand washing. It requires no seasoning or conditioning. Simply rinse in warm water before first use and allow the stone to dry thoroughly. Most recipes suggest preheating stone 15 to 20 minutes for even cooking and to reduce baking time. To prevent cracking, avoid temperature extremes from direct to oven or from oven to cold water. Do not place stone over an open flame or in a broiler. Do not cut directly on stone. Before cleaning, allow to cool completely. Then remove baked-on foods and rinse in warm water. To avoid soapy aftertaste, do not use soap or detergent. Do not soak the stone or clean in a dishwasher. The pizza stone will darken gradually and retain some staining with use. These are a part of the stone’s natural seasoning and will not harm it or affect the taste of the food. Handle the stone with care to prevent chipping or breaking.

## Cleaning Products

To make your product care and maintenance as easy as possible, American Metalcraft offers this quality line of cleaners, polishes, oil and scratch removers. Use these on a regular basis to improve the look and extend the life of your American Metalcraft products.

Item No.	Description	Pack	Cu. Ft.	Wt.	List Price
