# ORDER TERMS & conditions

---

## ORDER COMMUNICATION

- All purchase orders must be in writing: via fax, e-mail, or U.S. mail.
- Faxed PO's to be sent to: (513)229-4983.
- E-mailed PO's to be sent to: [custservice@downlite.com](mailto:custservice@downlite.com).
- Mailed PO's to be sent to: DOWNLITE, Hospitality Order Processing, 8153 Duke Boulevard, Mason, Ohio 45040.
- PO's that do not include the DOWNLITE product number will be delayed in processing. These product numbers begin with HOS100, as indicated within this catalog.

## PAYMENT TERMS

- DOWNLITE's credit terms are 50% deposit; Net 30 based on credit approval.
- We insure all receivables with a third party bank.
- We also accept check, money order, Visa and Master Card as methods of payment. We do not accept American Express.

## MINIMUM ORDER SIZE

- A \$50 less than minimum fee (*LTM*) will be applied to any orders under \$250. Please include the LTM fee on the purchase order if this applies.
- Quantities ordered must meet case pack requirements for each item.
- Decorative pillow inserts require a minimum order of 24 pcs. per size.

## LEAD-TIMES

- Most stocked items will ship within 5 business days from receipt of purchase order and credit approval.
- For items that require manufacturing, our normal lead-time on delivery ranges between two and four weeks, depending on product type.
- All decorative pillow inserts are made-to-order and require a production lead time of two to four weeks.

## FREIGHT

- All shipping charges are to be paid by the customer. Prices quoted are FOB Mason, Ohio, 45040; except for polyester pillows on page 15, which ship FOB: Middletown, IN 47356.
- For larger orders, DOWNLITE will obtain truckload or LTL quotes - valid for 30 days. Please e-mail [custservice@downlite.com](mailto:custservice@downlite.com) with quantities, items and the shipping address for freight estimates.
- If additional freight charges are incurred due to special delivery needs, (smaller trailer size to accommodate docks, etc) these costs will be passed on to the customer.

## WARRANTY

- DOWNLITE warrants all products it sells against manufacturing defects for one year.
- We will accept product returns for workmanship and manufacturing defects only.

## PRODUCT RETURNS

- DOWNLITE does not accept returns that have been used or laundered.
- All products require a return authorization (R/A) prior to return shipping. Products returned to DOWNLITE without an R/A number will be refused.
- Returned products are subject to a **25% restocking fee.**
- DOWNLITE will accept returns up to 30 days after shipment unless the product is defective.

# about

---

# DOWNLITE

Founded in 1983 as an offshoot of a 100-year-old European bedding firm, DOWNLITE is the largest and fastest growing major U.S. luxury down-filled bedding manufacturer. We make bedding products for fine hotels around the world and for most major U.S. bedding retailers. These products include natural and synthetic-filled comforters, blankets, pillows, feather beds, mattress toppers, decorative pillow inserts, and bedding accessories.

The vast majority of our products are manufactured at either our Mason, Ohio headquarters, or our plant in Middletown, Indiana. Others are produced at joint venture facilities in Europe and Asia.

We are the largest U.S. down and feather processor. Our RestAssured™ system cleans down at twice the U.S. government-required standard, making it not just

hypoallergenic, but sterile. Beyond using our down and feathers in bedding, our natural fills are used in furniture, sleeping bags and in branded outerwear.

Hospitality is DOWNLITE's fastest growing market. We are a custom manufacturer, tailoring products and services to each hotelier's needs. Equally important - in a world where what you order is not necessarily what you get - our integrity and customer-centric culture means that products are delivered on time, as ordered. Our quality control processes meet or exceed the standards of the world's most demanding properties.

## Why Choose

# DOWNLITE

We are a U.S. based family owned business that has built our long-standing reputation on quality craftsmanship & materials, integrity, customer partnerships, product innovation, on-time shipping and sharp pricing.

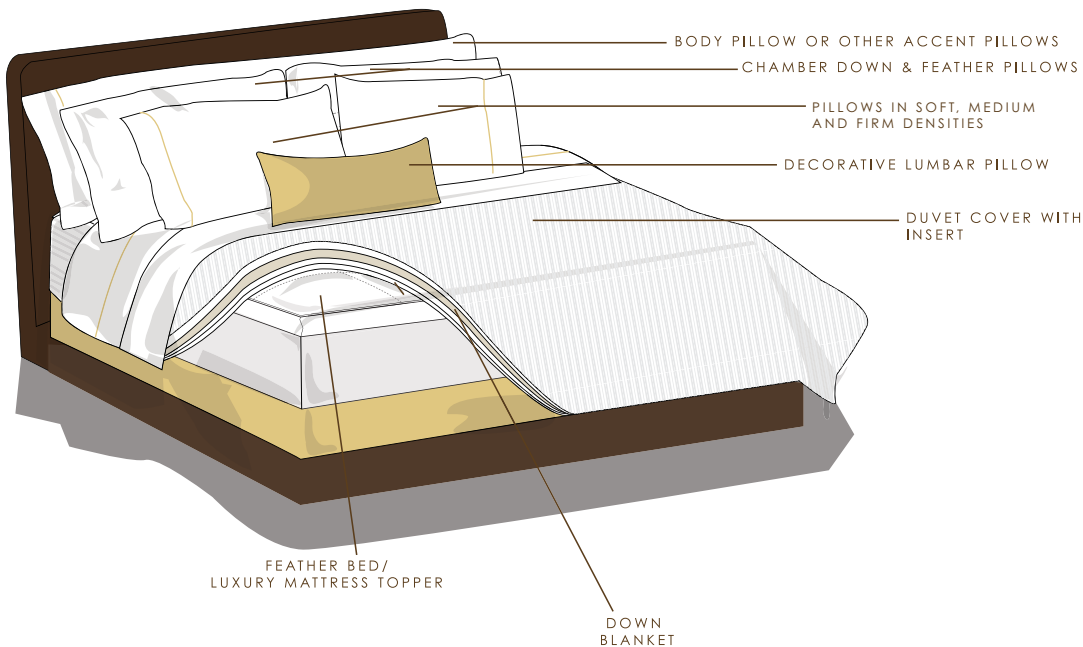

## our customers

DOWNLITE serves all types of hospitality customers: large chains, mid-scale hotels, spas and resorts, ultra luxury properties, bed & breakfasts, cruise lines, time-shares, fractional ownership vacation clubs, airlines, corporate housing firms, and their distributors. A representational list of these customers can be provided at your request.

You will also find DOWNLITE products under private label in most major department stores, specialty stores and catalogs. Our retail customers include: Amazon.com, Bed Bath & Beyond, Belk, Bloomingdale's, Cuddledown, Costco, Dillard's, Eddie Bauer, Fred Meyer, Garnet Hill, IKEA, HomeGoods, HSN, Land's End, L.L.Bean, Macy's, Nordstrom, Sam's Club, ShopNBC, Williams-Sonoma Home, as well as boutique linen and bedding stores across the country.

# Creating the PERFECT BED

*Begin creating the experience by adding one of our luxurious **feather beds** to the mattress. Next, lay a fitted sheet over the **feather bed** and tuck around the mattress. Enhance the sleep experience with triple sheeting by encasing a **down blanket** between a middle sheet and decorative top sheet. Add a touch of warmth and a cloud of comfort with a **down comforter**. The finishing touch is a layered **pillow presentation** with alternating levels of softness and firmness to drift into sweet dreams.*

DOWNLITE's Luxury Bedding to Enhance the Sleep Experience.

Comforters/Duvet Inserts

Duvet Covers

Pillows In Soft, Medium And Firm Densities

Body & Decorative Accent Pillows

Feather and Fiber Beds

Mattress Toppers

# RestAssured™ hypoallergenic natural fill

All down and feathers used by DOWNLITE are processed at double the USDA requirements, leaving them hypoallergenic and sterile. Through the industry's most rigid sanitizing methods, dust, dirt, oil and dander that trigger allergies are removed. With state-of-the-art washing lines, fresh water, European soap, specialized deodorizer and extra washing cycles, you can be **RestAssured™** about the quality and cleanliness of the feathers and down in our products.

## product features

### NO SHIFT CONSTRUCTION

All of our duvet inserts, filled blankets, feather beds and mattress toppers are made with a fixed construction. With either a quilted (sewn-through-box) or our patented PermaBaffle® baffle-box construction, these items will have evenly distributed fill even after laundering.

### MACHINE WASHABLE

Most of our products are designed to be machine washable. Of course, spot cleaning should always be your first line of defense... but if needed, you can throw most of our pillows, duvet inserts, and blankets in the washer. When drying, we recommend not exceeding 120 degrees and drying thoroughly. Detailed care instructions are sewn into each of our products.

### LEAK-PROOF CONSTRUCTION

All of our quality bedding products are guaranteed to be leak-proof. We only use fabrics that are woven and finished down-proof and have a minimum thread count (TC) of 230. We double-needle stitch the edges on all of our filled bedding items in order to secure the filling.

Fill Weight:	24 oz	29 oz	32 oz	35 oz

# Why Choose DOWN?

Down is nature's perfect sleeping accessory. Its supreme loft and softness creates a safe, cozy feeling without being overly heavy. Only down provides superior warmth, excellent breathability, and year-round comfort. As nature's most efficient insulator, down is generally perceived as the most comfortable and luxurious product for sleeping. Down is also a 100% renewable and sustainable resource that, when properly washed and processed, is hypoallergenic. The high thread count, cotton fabric that encases our down products feels soft to the touch and is tightly woven, keeping the down filling from escaping. The fabric also works as a barrier to allergens like dust mites, dander and pollen. Caring for down products is also easy and convenient. There's no need for costly dry cleaning, as most can be machine washed and dried. Adding a down duvet insert or blanket is seen as a luxurious indulgence to guests, and an energy efficient solution to reducing heating expenses in hotels.

## WHITE DOWN DUVET INSERT

Luxury White Goose Down Duvet Insert

# DOWN ALTERNATIVES

Some people love the look, feel, and luxury of natural down and feathers, but simply cannot enjoy these products due to allergy sensitivity. In addition, budget constraints may preclude utilizing natural filled products on the bed. For these times, a down alternative filled product is the right solution.

PrimaLoft® was created for the U.S. Army as a synthetic alternative to goose down to be used in sleeping bags and jackets. PrimaLoft® is an extremely durable, machine washable, hypoallergenic synthetic fiber that has all the wonderful warmth and softness of natural down. PrimaLoft® blown polyester fibers are anti-microbial and repel moisture, helping to keep your body dry and your bedding clean.

Unlike other synthetic filled bedding, PrimaLoft® bedding products don't get lumpy or go flat when laundered. In fact, the more PrimaLoft® bedding is laundered, the softer and puffier it will be. Most PrimaLoft® products can be machine washed using a mild detergent and tossed into the dryer, at a low heat setting.

DOWNLITE is the exclusive U.S. source for PrimaLoft® filled bedding – the only true Luxury Down Alternative™. This unmatched filling material has skyrocketed in use at hotels as an affordable replacement for natural down.

If PrimaLoft® does not meet the project budget, then DOWNLITE's EnviroLoft® fiber is the next best option. It looks, acts, and feels much like the exclusive PrimaLoft® fiber, but can be a more economical choice.

## PRIMALOFT® DUVET INSERT

# UNDERSTANDING chamber pillows

Chamber Pillows

A chamber pillow is essentially, a pillow within a pillow. The unique three chamber design offers superior comfort while providing optimal support. The outer chamber is filled with either soft down or down alternative fibers to create an ultra soft and adjustable sleep surface, while the inner chamber of feathers provides the support your head and neck need.

Microloft® Pillows

PrimaLoft® Luxury Mattress Topper

# Creating Luxurious Natural Filled Bedding Products

## A. Washing/Sterilizing Process

Our down and feathers are washed and sterilized thoroughly at twice the U.S. regulated standards. Once the natural materials are thoroughly washed and dried, they are sorted.

## B. Feather & Down Sorter

Only the highest quality down and feathers are selected for our products. The sorting machine separates the down from the various feather sizes, which are used for different bedding products. The feather and down undergo rigorous testing and inspection to guarantee quality.

## C. Baling and Lot-Tracking

The processed down and feathers are baled and labeled until they are ready to be used. All natural materials are lot-tracked to assure quality control.

## D. Filling

State-of-the-art machinery is used to fill our products. The products are then finished with care by hand.

## E. Quilting

Most of our hospitality comforters feature a sewn-through box construction. This assures the natural or synthetic filling materials stay locked in place, even after washing.

## F. Quality Control

Our customers require the best, regardless of price point. Here, our quality control team inspects finished goods.

## G. Warehousing & Transport

DOWNLITE has over 400,000 square feet of warehousing space in our Ohio, Indiana and California facilities.
