Working width of suction nozzle (mm): 280+170
Dirty water tank capacity (ml): 100
Battery charging time (min): 120
Battery running time (min): 25
Cleaning performance per battery charge: Approx. 75 m² = 25 windows
Current type (V/Hz): 100 - 240 / 50 - 60

Quick to empty

The dirty water tank can always be emptied quickly and easily when required.

Exchangeable suction nozzle

Choose between a large or small suction nozzle, based on the size of the cleaning surface.

LED display in field of view

Energy management made easy: the LED display integrated in the on/off switch indicates in good time when the battery needs to be recharged.

The compact SG 4/4 steam cleaner with powerful 4-bar steam pressure. With continuously variable steam volume control and VapoHydro function for perfect cleaning results without the use of chemicals.

Heating output (W): 2300
Tank capacity Ltr: 4
Cable length (m): 7,5
Steam pressure (bar): 4
Boiler temperature (°C): max. 145
Weight without accessories (kg): 8

2-tank system

VapoHydro

Accessory storage compartment

The fresh water tank can be continuously filled as the boiler and tank are separate. Because only part of the overall volume is heated at any one time, it takes very little time for a consistent steam pattern to form. With a total capacity of over 4 litres, the SG 4/4 can be used for long periods without refilling.

Thanks to VapoHydro, the steam level can be infinitely adjusted to the cleaning task. In addition to the steam pressure, the saturation can be infinitely adjusted from full steam to hot water. With the hot water jet, even stubborn dirt can be effectively dissolved from the start.

The integrated storage compartment enables the storage of a variety of accessories. Special small parts are always safely stored and do not get lost. Even the tubes can be stored on the rear of the unit.

The Puzzi 8/1 C is a powerful entry-level spray extraction machine. The spray extraction machine can be used for upholstery cleaning or for removing stains on carpets. Because an extremely small amount of residual moisture remains after cleaning, cleaned carpets and upholstery can be quickly used again. Equipped as standard with a spray vacuum hose and ergonomic hand nozzle.

Max. area performance (m²/h): 12-18
Air flow rate (l/s): 61
Vacuum (mbar/kPa): 230/23
Spray rate (l/min): 1
Spray pressure (bar): 1
Fresh/dirty water tank Ltr: 8-7
Turbine power (W): 1200

Low weight

At 9.8 kg, the Puzzi 8/1 C is easy to carry and 35% lighter than the competition. Ideal for intermediate cleaning, thanks to rapid drying. Easily transported, even over obstacles and stairs. Integrated carrying handle for transport with one hand.

Compact design

The Puzzi 8/1 C also shows its strengths when cleaning upholstery and vehicle interiors. Compact, space-saving design.

Convenient handling and good accessibility

Easily removable dirty water tank, easy disposal of dirty water and refilling of the fresh water tank.

For maximum mobility and best cleaning results even under tough conditions: the HD 7/15 G petrol-driven cold water high-pressure cleaner with 150 bar pressure from the Gasoline Advanced range.

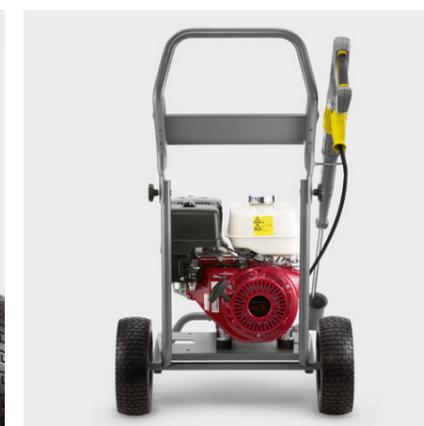

NEW

Professional High Pressure Cleaner, Cold Water, HD 7/15 G
SKU: KAR-1.187-903.0

PRICE

VEP

Flow rate (l/h): 650
Working pressure (bar/MPa): 150/15
Motor type: GX 160/gasoline
Engine manufacturer: Honda
Weight (kg): 39,5
Dimensions (L×W×H) (mm): 790x608x1104

Maximum independence

Fitted with reliable Honda or Yanmar engines for use without an external power supply. Can suck up water – e.g. from lakes or ponds – and use it for cleaning.

Optimum ease of use

The ergonomic frame concept makes transport on uneven ground easier. Storage possibilities for all accessory parts directly on the machine. Puncture-proof wheels guarantee permanently high mobility.

Highly versatile

Optional cage frame with eye-lets for crane loading reliably protects the machine. Hose reel attachment kit for shorter set-up & finishing-off times available as an optional extra. Portable version with robust tubular frame specially designed for painters and plasterers (HD 728 B).

Specifically developed for the commercial food industry: the unheated HD 7/18 - 4 M high-pressure cleaner. With high-quality equipment, the top model in the Compact class has an upright and exceptionally robust construction style and impresses with a high level of mobility, easy operation and the long service life of its individual components.

Air flow rate (Ltr/sec): 53
Vacuum (mbar/kPa): 240/24
Container capacity Ltr: 10
Sound pressure level (dB(A)): 59
Turbine power (W): 800
Energy efficiency class: B

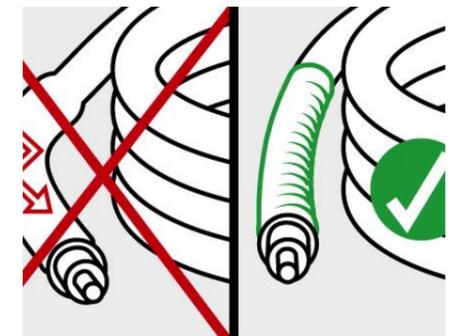

Large, round permanent
main filter of washable
fleece

Extremely strong and dense
enough to allow vacuuming for
longer times without a filter
bag.

Maintenance-friendly

The cable can be replaced
quickly and easily by simply
loosening 2 screws. This saves
time and service costs.

Bend Protection

Cable hook

The power cable is simply at-
tached to the cable hook. This
prevents dangerous tripping
hazards during transport.

Light and ergonomic: the T 7/1 Classic with standard fleece filter bag is an entry-level class vacuum cleaner, offering great value for money, powerful suction and cord storage.

NEW

Professional Vacuum Cleaner,
Dry, T 7/1 Classic

PRICE
446.
VEP

Air flow rate (l/s): 40
Vacuum (mbar/kPa): 235 / 23,5
Container capacity Ltr: 7,5
Max. rated input power (W): max. 850
Standard nominal width: 35
Cable length (m): 7,5
Sound pressure level (dB(A)): 62

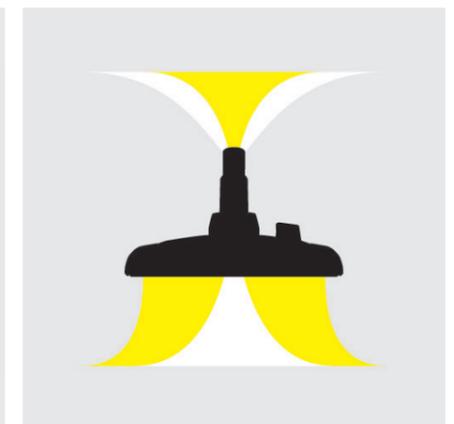

Low weight

Compared to competitor models up to 50 percent lower weight with identical container volume.

Main filter basket for optimal dust separation

The permanent main filter ensures optimum dust separation, allowing operation without a filter bag.

Maximum suction power with simultaneously minimal energy use

Optimised airflow ensures excellent suction power, thus making oversized turbines superfluous. Compared to competitor models almost 25 percent lower power consumption. Higher suction power at the floor nozzle compared to competitor models with 25 percent lower power consumption.
