**Speed Queen®**

# BUILT FOR RELIABLE PERFORMANCE.

100 years. It's a long time for any company to be at the forefront of an industry. And you'd think that a company that's been able to lead for that long must have a finely honed craft — a premier product. Well, you'd be right. For more than a century, Speed Queen has built a legacy on providing equipment that stands up to any commercial laundry challenge. We make no compromises in performance. We refuse to be outdone in reliability and efficiency. Our commitment to quality is only matched by our commitment to your success. The result? The most profitable machines in the industry — bar none.

Some of our competitors may think that a residential machine wrapped in a rugged exterior passes for commercial grade. We believe that strength comes from within. Speed Queen machines are built specifically for the commercial environment. We use metal where others use plastic. Our world-class Test Lab rigorously pushes our products far beyond the conditions they'll face in the field. We believe in being there when our customers need us most. And we work hard at every point of our manufacturing process to ensure that our machines reflect that belief.

# LAUNDRY. IT'S ALL WE DO.

As the world's largest commercial laundry company, we help you achieve profitability with more laundry services than anyone else in the industry.

## LAUNDRY DESIGN

From selecting the right location to choosing a layout and everything in between.

## DISTRIBUTORS

True laundry experts, our knowledgeable distributors offer guidance, service and support.

## CUSTOMER ONE

We're committed to delighting our customers at every point of interaction.

## GENUINE PARTS

Same design. Same reliability. The perfect maintenance solution.

**ACTIVATIONS** SINGLE DROP • DUAL DROP • ELECTRONIC DROP • AFTERMARKET CARD READERS AND CENTRAL PAY

Available in 9.0 kg (20 lb), 13.6 kg (30 lb), 18.0 kg (40 lb), 27.0 kg (60 lb) and 36.3 kg (80 lb) capacities.

## HARDMOUNT WASHER-EXTRACTORS\*

Flexible water usage. High-speed extraction. This sublime marriage of form and function will be the crown jewel of your laundry operation.

Many factors contribute to your laundry's profitability, but most prominently featured are its washer-extractors. These units, by virtue of their size and speed, are customer draws and profit producers. Successful coin laundry owners understand this and will install a variety of sizes. The heavy-duty construction and reliable operation guarantee your washer-extractor will be in service for years to come.

### HARDMOUNT WASHER-EXTRACTOR CONTROLS

---

#### QUANTUM™ GOLD

In addition to its networking and off-site management capabilities, Quantum™ Gold offers a total of 27 cycle combinations, 30 programmable water levels and customer-centric offerings such as a "lucky cycle" for loyal customers. PC programming is easy and fast, while time-of-day pricing can be scheduled to increase business on slower days. Cycle modifier keys allow additional profit opportunities and the ability to interface with your card payment system of choice. Quantum™ Gold is designed to help you maximize your profitability.

#### QUANTUM™ SILVER

Quantum™ Silver gives owners a variety of profit-producing features, including nine cycle combinations, multi-level vending and time-of-day pricing. Programming is easily accomplished through a PC via an infrared port on the control, and can interface with your card payment system of choice.

\* not all models are available in all markets

## FEATURES

### SEALS AND BEARINGS ASSEMBLY

Two triple-lip seals and an excluder face seal for an unprecedented seven layers of water protection.

### ADVANCED INVERTER DRIVE AND SUMP SYSTEM DESIGN

Our proprietary inverter drive technology provides smooth, reliable power - saving you 33% on electricity versus previous models. The sump system design uses 11% less water while maximizing cleaning power.

### STRONGER FRAME

Computer-optimized frame is lighter, lasts longer, balances loads more efficiently and is designed to reduce sound and vibration levels.

### 200 G-FORCE EXTRACTION

On a typical 13.6 kg (30 lb) washer, choosing the 200 G-Force spin speed option can remove an extra 2 litres of water from the load. This higher spin speed will help move customers through your store faster, and cut your gas usage by as much as 15 percent.

### PC PROGRAMMING CAPABILITY

Manually programming a new or rehabbed store can be time-consuming and prone to errors. The simple, accurate Quantum™ Vended Software allows you to preset your control program on a PC and download your custom cycles, vends and other features into your machines in minutes, instead of hours.

### DOOR HANDLE AND LOCK MECHANISM

The Speed Queen door handle is ergonomically designed for ease of operation, while its locking mechanism is extremely reliable, reducing the risk of alignment problems and door-lock error codes. The control also features a positive locking indicator.

### FOUR-COMPARTMENT SUPPLY DISPENSER

A four-compartment supply dispenser saves time, offers a temperature fill and eliminates over-sudsing conditions. Customers can add two detergents, bleach and softener, all at the beginning of the cycle.

**ACTIVATIONS** SINGLE DROP • DUAL DROP • ELECTRONIC DROP • AFTERMARKET CARD READERS AND CENTRAL PAY

Available in 6.5 kg (14 lb), 8.0 kg (20 lb), 11 kg (25 lb), 14 kg (30 lb), 18 kg (40 lb), 24 kg (55 lb) and 28 kg (65 lb) capacities.

## SOFTMOUNT WASHER-EXTRACTORS\*

The practical ingenuity of Speed Queen is evident in every inch of the heavy-duty suspension and stainless steel construction. This is laundry for the modern world.

The powerful operation of a washer-extractor often requires that the machine be bolted to the floor. Softmount washer-extractors offer an alternative for specialized applications, such as second floors, where hardmount units aren't an option. The heavy duty suspension absorbs vibrations without the need for special foundations, and our stainless steel construction prevents the washer finish from corroding with normal use. The High G-Force extraction significantly reduces drying times and utility costs, getting customers in and out of your vended laundry as efficiently as possible.

### SOFTMOUNT WASHER-EXTRACTOR CONTROL

---

The **QED Control** provides a maximum of 10 programs. Extremely versatile and easy to use, the advanced computer control meets a variety of specialized needs. With more than 20 languages available, our QED Control is extremely flexible and intuitive for bilingual users. Customers can easily follow the status of every phase of the wash cycle .

\* not all models are available in all markets

## FEATURES

### SUPER-HIGH G-FORCE EXTRACTION

A high speed extraction of 350-400 G-Force reduces drying times by up to 40 percent, as well as offering significant savings on your utility costs.

### LAPTOP PROGRAMMING CAPABILITY

Manually programming a new or rehabbed store can be time-consuming and error-prone. Using a laptop computer equipped with the QED Assist software makes it easy to create and download exact settings and vend prices.

### VARIABLE SPEED DRIVE

With a state-of-the-art inverter drive system, these versatile machines deliver unique extraction speeds calibrated for certain load types so the ideal amount of water is used.

### AUTOMATIC SUPPLY INJECTION

Leave the dispensing of supplies to your machine with automatic supply injection, which reduces detergent waste and provides more consistent laundry results.

### HEAVY-DUTY SUSPENSION

Heavy-duty coil springs and strategically-placed shock absorbers stabilize the machines, absorbing out-of-balance load vibrations.

### STAINLESS STEEL COMPONENTS

Stainless steel front, top and side panels, as well as the inner drum, and tub provide for a long-lasting design to best serve your laundry needs.

### SOLID STEEL CONSTRUCTION AND AN INDUSTRIAL-STRENGTH DESIGN

A strong over-sized door lock and wide set door hinges provide strength and stability. Reinforced side panels are integrated for increased strength and durability.

**ACTIVATIONS** SINGLE DROP • DUAL DROP • ELECTRONIC DROP • AFTERMARKET CARD READERS AND CENTRAL PAY

Available in 11.3 kg (25 lb), 13.6 kg (30 lb), 15.9 kg (35 lb), 23 kg (50 lb), 24.8 kg (55 lb) and 34.0 kg (75 lb) capacities.

## TUMBLE DRYERS\*

Uncomplicated. Uncompromising. Unmatched. Enjoy heavy-duty construction that will provide reliable operation for years to come.

The cabinet design of our single-pocket tumble dryers strikes the perfect balance of heat, airflow and tumble action. Burners ignite instantly, providing the desired temperature quickly, evenly and efficiently distributing heat for reduced drying times and energy savings. Our tumble dryers are designed with fewer moving parts, so that you'll face fewer maintenance problems and less wear and tear. We make it even easier with a large, easy-to-clean lint compartment and a heavy-duty door hinge designed to withstand heavy usage.

Speed Queen now offers you the choice of two tumbler ranges to best satisfy your needs. The ECO-Line range is offered on the ST025, ST030, ST035, ST055 and ST075 products. The Speed Queen ECO-Line of tumblers features a lower energy input and therefore a lower energy usage compared to our Classic-Line of tumblers. This range offers a solution for end-users aiming at the lowest energy consumption rates in their industry.

### FEATURES

High-performance heater box increases energy efficiency, reduces drying times and provides a more comfortable operating environment

Patented oval cylinder perforations help prevent damage to the dryer's sweep sheets caused by objects left in customers' pockets

A reversing cylinder helps eliminate tangles of large items such as sheets and blankets, ensuring even drying and easy removal of loads at cycle completion

Large, easy-to-clean lint compartment

The 24.8 kg (55 lb) model fits through a 914.4 mm (36 inch) door opening and is a foot shorter than our 23 kg (50 lb) unit, making it a great replacement option for laundries short on space

### TUMBLE DRYER CONTROLS

#### QUANTUM™ GOLD

In addition to its network capabilities with our larger equipment and off-site management features, Quantum™ Gold offers additional owner and customer benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing, a "lucky cycle" for loyal customers and the ability to interface with the store owner's card manufacturer of choice.

#### MICRO-DISPLAY

Our Micro-Display Control (MDC) allows for manual programming of control features such as vend price, as well as offering basic audit features. The LED panel displays vend price and time remaining in the cycle.

\* not all models are available in all markets

**ACTIVATIONS** SINGLE DROP • DUAL DROP • ELECTRONIC DROP • AFTERMARKET CARD READERS AND CENTRAL PAY

Available in 13.6 kg (30 lb) and 20.4 kg (45 lb) capacities.

## STACK TUMBLE DRYERS\*

Get twice the capacity of a standard dryer in the floor space of a single pocket tumble dryer. Plus, you'll still only need one set of gas, electric and exhaust hook ups, simplifying your installation.

The cabinet design of our stack tumble dryers strikes the perfect balance of heat, airflow and tumble action. This means that no energy is wasted and loads receive the most concentrated drying possible. This equates to some of the fastest dry times in the industry. Plus, our patented oval cylinder perforations solve a common, highly damaging problem, allowing stray screws to pass through without doing large amounts of damage to the dryer's sweep sheets. Adding stack tumble dryers to your coin laundry not only positions your store to get customers out the door faster, but they also offer a wealth of profit potential.

Speed Queen now offers you the choice of two tumbler ranges to best satisfy your needs. The ECO-Line range is offered on the STT30 and STT45 products. The Speed Queen ECO-Line of tumblers features a lower energy input and therefore a lower energy usage compared to our Classic-Line of tumblers. This range offers a solution for end-users aiming at the lowest energy consumption rates in their industry.

### FEATURES

Axial airflow pattern with sealed cylinder rims delivers the fastest and most efficient drying results

Two drying pockets in the space of one unit helps stores increase drying capacity

Large, easy-to-clean lint compartment

Fewer moving parts mean fewer maintenance problems and less wear

High performance heater box increases energy efficiency, reduces drying times and provides a more comfortable operating environment

Single gas, electric and exhaust hookups simplify installation and are less expensive than installing twice the number of single units

### TUMBLE DRYER CONTROLS

#### QUANTUM™ GOLD

In addition to its network capabilities with our larger equipment and off-site management features, Quantum™ Gold offers additional owner and customer benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing, a "lucky cycle" for loyal customers and the ability to interface with the store owner's card manufacturer of choice.

#### MICRO-DISPLAY

Our Micro-Display Control (MDC) allows for manual programming of control features such as vend price, as well as offering basic audit features. The LED panel displays vend price and time remaining in the cycle.

\* not all models are available in all markets

**Speed Queen®**

**ACTIVATIONS** SINGLE DROP • DUAL DROP • ELECTRONIC DROP • AFTERMARKET CARD READER AND CENTRAL PAY • COIN SLIDE

Available in 9 kg (20 lb), 11 kg (25 lb), 13 kg (30 lb) and 16 kg (35 lb) capacities.

## HEAT PUMP TUMBLER DRYERS\*

For laundry operations not suited for the added cost and installation of sufficient ducting, Speed Queen Heat Pump tumble dryers deliver an efficient solution. The Heat Pump tumble line does not require any vent ducting as 100% recycling of waste air through rapid cooling removes moisture while rapid heating results in the reintroduction of heat into the drying cylinder.

Speed Queen's Heat Pump tumblers reduce energy by more than 70% compared to similar tumble dryers saving your laundry operation utility costs. Minimal electrical infrastructure is needed as only 3.6kW (12,284 BTU/hr) of total power input is required.

### FEATURES

Standard self-cleaning system uses condensation to rinse heat exchanger decreasing amount of lint and foreign contaminants for cleaner linens and decreased maintenance

Steel shaft and dual bearings extend the life of your machine

Optional humidity sensing prevents overdrying

One central belt tensioning system allows for ease of service

Optional mechanical washing system uses pressurized water to efficiently clean the heat exchanger

Optional reversing for large items

### TUMBLE DRYER CONTROLS

#### EASY

EASY Control offers a simple, user-friendly operation through 3 pre-programmed cycles. Error messages are displayed on the control for efficient and effective servicing. Temperature can be freely programmed in one degree increments.

\* not all models are available in all markets

**ACTIVATIONS** SINGLE DROP • DUAL DROP • ELECTRONIC DROP • AFTERMARKET CARD READERS AND CENTRAL PAY • COIN SLIDE

Available in 7.3 kg (16 lb) capacity.

## TOP LOAD WASHERS\*

As timeless as they are reliable, these washers are built from the ground up with heavy-duty components that are guaranteed to stand the test of time.

Speed Queen commercial top load washers help a coin laundry owner provide an assortment of machines to fill the varying needs of customers — particularly those who prefer to separate items into smaller loads. Constructed from heavy-duty components, from the stainless steel washtub and all-metal transmission to the commercial-grade cabinet finish, you're ensured an extended life for your coin laundry investment.

### FEATURES

At 710 RPM, the top load washer's spin speed ranks among the highest in the industry, reducing drying times and handling high turn volumes during peak periods

Our curved four-vane agitator delivers an industry-best 210° wash stroke that produces unparalleled cleaning results

Speed Queen's exclusive stainless steel tub comes with a lifetime warranty, and actually becomes smoother with each use, so it won't pill, snag or fray clothes

Fast cycle times allow laundromat owners to capitalize on the opportunities for additional profits

### TOP LOAD WASHER CONTROLS

#### QUANTUM™ GOLD

In addition to its network capabilities with our larger equipment and off-site management features, Quantum™ Gold offers additional owner and customer benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing, a "lucky cycle" for loyal customers and the ability to interface with the store owner's card manufacturer of choice. Cycle modifier keys create additional profit opportunities for store owners

#### MICRO-DISPLAY

Our Micro-Display Control (MDC) clearly displays the vend price and keeps customers informed throughout the wash process with cycle status lights and a digital cycle countdown. Interfacing with a variety of aftermarket card reader systems, MDC offers four cycle selections and basic audit data features.

#### COIN SLIDE

The Coin Slide control features a straightforward design that offers customers simple water temperature and fabric selections, using cue lights to monitor progress through the wash cycle. This control is designed to function with any coin slide manufacturer's equipment.

\* not all models are available in all markets

**Speed Queen®**

**ACTIVATIONS** SINGLE DROP • DUAL DROP • ELECTRONIC DROP • AFTERMARKET CARD READERS AND CENTRAL PAY • COIN SLIDE

Available in 9.5 kg (21.5 lb) capacity.

## FRONT LOAD WASHERS\*

Energy efficient. Cost efficient. Everything you need to reduce operating costs, from our low water usage to our high-speed extraction.

Our front load washers are highly efficient, reducing operating costs with low water usage, using as low as 44.3 liters (11.7 gallons) a cycle — a savings of more than 40 percent compared to some commercial top load washers. A 1,200 RPM spin speed increases overall laundry efficiency by removing more moisture from loads. Less moisture translates into reduced drying times. Fast cycle times get the job done quickly, providing high turn counts for busy vended laundries, while the double load washtub provides lots of room for larger loads.

### FEATURES

Improved suspension with new out-of-balance logic manages and redistributes unbalanced loads for uninterrupted wash cycles.

High spin speed up to 1,200 RPM removes more water from clothes, speeding up drying cycles and lowering dryer energy usage

Heavy-duty construction, from rugged steel drive components to stainless steel inner and outer tubs

A pump drain allows our front load washers to be installed adjacent to or replace top load washers with no special plumbing (A gravity drain option also is available)

Redesigned supply dispenser features four compartments (Pre-wash detergent, wash detergent, bleach, and softener) and automatically dispenses as needed for a complete wash.

### FRONT LOAD WASHER CONTROLS

#### QUANTUM™ GOLD

In addition to its network capabilities with our larger equipment and off-site management features, Quantum™ Gold offers additional owner and customer benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing, a “lucky cycle” for loyal customers and the ability to interface with the store owner’s card manufacturer of choice. Cycle modifier keys create additional profit opportunities for store owners.

#### MICRO-DISPLAY

Our Micro-Display Control (MDC) clearly displays the vend price and keeps customers informed throughout the wash process with cycle status lights and a digital cycle countdown. Interfacing with a variety of aftermarket card reader systems, MDC offers five cycle selections and basic audit features.

#### COIN SLIDE

The Coin Slide control features a straightforward design that offers customers simple water temperature and fabric selections, using cue lights to monitor progress through the wash cycle. This control is designed to function with any coin slide manufacturer’s equipment.

\* not all models are available in all markets

**ACTIVATIONS** SINGLE DROP • DUAL DROP • ELECTRONIC DROP • AFTERMARKET CARD READERS AND CENTRAL PAY • COIN SLIDE

Available in 8.0 kg (18 lb) capacity cylinder.

## SINGLE DRYERS\*

With a large load capacity in a compact frame, each one of our single dryers is all business, all the time. So you don't have to be.

Commercial dryers are designed as perfect complements to front and top load washers for vended laundry applications in areas where revenues may not support a large-scale coin laundry. With an easy-to-clean large lint compartment and a reversible door to accommodate your laundry design, Speed Queen single dryers are designed to suit your laundry's specific needs. The 1913.8 sq.cm (2.06 sq. ft.) door opening is the largest in the industry, providing easy loading and unloading for your customers.

## FEATURES

Durable galvanized steel cylinder with an extra-large 198.0 litres (7 cu. ft.) of volume to handle large loads and promote faster drying

Efficient dryer heating with 25,000 Btu (6,300 kCal) (gas models) and up to 5,200 Watts (electric models)

Extended Tumble helps eliminate wrinkling by tumbling for two minutes at 20 minute intervals if the door isn't opened

A quiet, efficient blower system uses a superior airflow of 5100.0 liters (180 CFM) per minute for quick drying results and low operating costs

## SINGLE DRYER CONTROLS

### QUANTUM™ GOLD

In addition to its network capabilities with our larger equipment and off-site management features, Quantum™ Gold offers additional owner and customer benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing, a "lucky cycle" for loyal customers and the ability to interface with the store owner's card manufacturer of choice.

### MICRO-DISPLAY

Our Micro-Display Control (MDC) allows for manual programming of control features such as vend price, as well as offering the capability to interface with a variety of aftermarket card reader systems, MDC offers four cycle selections and basic audit data features. The LED panel displays vend price and time remaining in the cycle.

### COIN SLIDE

The Coin Slide control features a straightforward design that offers customers simple temperature and fabric selections, using cue lights to monitor progress through the cycle. This control is designed to function with any coin slide manufacturer's equipment.

\* not all models are available in all markets

**ACTIVATIONS** SINGLE DROP • DUAL DROP • ELECTRONIC DROP • AFTERMARKET CARD READERS AND CENTRAL PAY • COIN SLIDE

Available in 8.0 kg (18 lb) capacity cylinder.

## STACK DRYERS\*

Save your floor space and double up on some of the most efficient dryers in the industry.

Get twice the drying capacity in the compact floor space of a single dryer with Speed Queen stack dryers. You'll also benefit from extra capacity for large loads, for the ultimate in space-saving performance, helping you get the maximum amount of work done without endangering your bank account — or your laundry design.

### FEATURES

Extra large capacity for large loads

1913.8 sq. cm (2.06 sq. ft.) door opening is the largest in the industry, providing easy loading and unloading for customers

Efficient dryer heating with 25,000 Btu (6,300 kilocalories) (gas models) and up to 5,200 Watts (electric models)

Extended Tumble helps eliminate wrinkling by tumbling for two minutes at 20 minute intervals if the door isn't opened

### STACK DRYER CONTROLS

#### QUANTUM™ GOLD

In addition to its network capabilities with our larger equipment and off-site management features, Quantum™ Gold offers additional owner and customer benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing, a "lucky cycle" for loyal customers and the ability to interface with the store owner's card manufacturer of choice.

#### MICRO-DISPLAY

Our Micro-Display Control (MDC) allows for manual programming of control features such as vend price, as well as offering the capability to interface with a variety of aftermarket card reader systems. MDC offers four cycle selections and basic audit data features. The LED panel displays vend price and time remaining in the cycle.

#### COIN SLIDE

The Coin Slide control features a straightforward design that offers customers simple temperature and fabric selections, using cue lights to monitor progress through the cycle. This control is designed to function with any coin slide manufacturer's equipment.

\* not all models are available in all markets

**ACTIVATIONS** SINGLE DROP • DUAL DROP • ELECTRONIC DROP • AFTERMARKET CARD READERS AND CENTRAL PAY

Available in 9.5 kg (21.5 lb) washer capacity and 8.0 kg (18 lb) dryer capacity.

## STACK WASHER/DRYER\*

Get the complete package in a single unit, combining our efficient dryers with the powerful performance of our industry-leading front load washers. Available in 9.5 kg (21.5 lb) washer capacity and 8.0 kg (18 lb) dryer capacity.

Our line of stack washer/dryers are designed as vertical combinations that provide all of the power of Speed Queen washers and dryers while occupying only half of the floor space of a conventional washer and dryer setup. Plus, these stacked units allow you to utilize the same connections and hook-ups required by a standard washer and dryer and come preassembled for simple installation.

### FEATURES

Improved suspension with new out-of-balance logic manages and redistributes unbalanced loads for uninterrupted wash cycles

Water use as low as 44.3 liters (11.7 gallons) per cycle to reduce operating costs

Extended Tumble helps eliminate wrinkling by tumbling for two minutes at 20 minute intervals if the door isn't opened

Just like their stand-alone counterparts, Speed Queen stacks are 100 percent front serviceable to limit downtime for service

### STACK WASHER/DRYER CONTROLS

#### QUANTUM™ GOLD

In addition to its network capabilities with our larger equipment and off-site management features, Quantum™ Gold offers additional owner and customer benefits such as PC programming and machine audit capabilities, as well as time-of-day pricing, a "lucky cycle" for loyal customers and the ability to interface with the store owner's card manufacturer of choice. Cycle modifier keys create additional profit opportunities for store owners.

#### MICRO-DISPLAY

Our Micro-Display Control (MDC) clearly displays the vend price and keeps customers informed throughout the laundry process with cycle status lights and a digital cycle countdown. Interfacing with a variety of aftermarket card reader systems, MDC offers five cycle selections for the washer and four cycle selections for the dryer and basic audit features.
